To all exhibitors of livestock originating from the cattle tick protected and free areas

Proston PA&H Society has an approved spray facility located within the Proston showgrounds. There is an approved tick control person and equipment available to undertake required treatments for livestock exhibited on their return movement to the property origin.

To be eligible to have the approved person treat your stock you will need a Queensland Travel Permit issued by your local stock inspector and a fully completed Queensland Livestock Movement System – Move Easy Waybill.

The Permit will be from your property to the showgrounds and return, subject to the conditions endorsed on the permit including, the return movement must be within 72 hours for cattle, deer and buffalo; within 5 days for horses, sheep, goats and camelids, and that will allow for the approved person to perform the required treatments.

Under no circumstances will the approved sprayer perform any treatment of stock unless ALL conditions of the permit are met, and the Permit and Waybill are presented.

An alternative is for any person who has undertaken an approved awareness course, to treat their own stock. These people will be permitted to utilise the facilities at the grounds.

Any stock not meeting these requirements will be required to be treated by a permanent inspector at a clearance centre.
